

## Experienced Handyman

### Company Overview

Hire A Hubby is Australia's largest handyman business. Our goal is to provide customers with a complete handyman service. Our home maintenance franchises are spread all across Australia and standalone individual businesses.

### Operating Environment

As an Experienced Handyman you will be required to work on-site as part of your day to day duties. You will be required to:

- provide your own transport to and from your start and finish location. You may also be required to travel in your vehicle to alternative locations or to pick up material during work hours.
- supply your own tools and equipment. It is your responsibility to ensure your tools meet the required workplace health and safety standard and are in working order,
- possess a working knowledge of how to operate tools and equipment to manufacturer's specifications,
- transport your tools and personal protective equipment to each site,
- work onsite. As such you will experience limited access to facilities and amenities, including kitchen and lunch facilities,
- work with limited or no supervision, and
- perform physical labour often exposed to the elements, sometimes in extreme conditions. As such, it is an inherent requirement of the position that persons occupying the position have both the physical and mental fitness to work in these conditions.

### Job Purpose

The primary function of the role is to provide a variety of professional experienced handyman services at a **trade qualified level** including repairs, maintenance and renovations as required by clients in both the residential and commercial fields.

You will report to the Franchise Manager or any other person as directed by the Company.

### Roles and Responsibilities

An employee at this level:

- has demonstrated trade skills to a level of a certificated trades;
- has demonstrated cross trade skills in multiple building and construction trades;
- can interpret plans and drawings relevant to their functions;
- performs non-trade tasks incidental to their work;
- conducts on-the-job guidance to a limited degree;
- instructs apprentices, trainees and general handyman in the correct performance of trade related skills;

- provides of on-the-job training;
- assumes responsibility for allocating tasks within a Work team within the area of the employees skill competence and training;
- ability to work in a safe manner as not to cause self-injury or injury to others
- has responsibility for the order and purchase of materials within defined parameters;
- is able to sequence functions relevant to the employee's Work team;
- applies quality control techniques to the employee's own work and other employees within the Work team
- **can work at a level higher than an employee at LV02;**
- utilises ICT equipment in the course of their employment;
- can complete paperwork required to ensure projects are completed; and
- can utilise complex problem solving skills.
